EXPERIENCE

Trident Techlabs Ltd, Software Developer Sep 2023 – present

Project: MSEDCL

- Developed and enhanced dynamic GIS mapping webpage for the MSEDCL website by implementing JavaScript and Bootstrap Framework. Also used Different Libraries like Material UI, AntDesign and ShadCn(TailwindCSS).
- Led the design, implementation, and optimisation of APIs crucial for seamless data integration. Handling a Large amount of Data in the Api for Faster Processing and a Better User Interface.
- Developed a dynamic admin panel using React.js, Tailwind CSS, and Lucide React icons. Enabled CRUD operations for user management and a permissions system for streamlined server administration.

Project: ADANI

- Conducted comprehensive testing of the web application.
- Implemented JavaScript and Bootstrap CSS to significantly improve the overall layout and user interface of the web application.

SKILLS

Git | Github | Linux | React | JavaScript | Bootstrap Framework | CSS | Tailwind |
